# UTILITY PROFILE

The Texas Water Development Board has the Utility Profiles in their system. Hard copies are kept at Lake Livingston Water Supply Corporations office.

## Section 1

### Declaration of Policy, Purpose, and Intent

The purpose of the Water Conservation Plan is to encourage company and customer conservation in order to maintain supply, storage, or pressure and to comply with the requirements of government agency or other authority.

## Section 2

### Public Involvement

Opportunity for the public and retail/wholesale water customers to provide input into the preparation of the plan was provided by Lake Livingston Water Supply Corporation.

## Section 3

### Public Education

Lake Livingston Water Supply Corporation will periodically provide the public with information about the plan. This information will be provided by means of providing a copy of the plan or periodically including information about the plan on Lake Livingston Water Supply Corporation company's web site page and through the Lake Livingston Water Supply Corporation's automated customer notification system.

## Section 4

### Coordination with Regional Water Planning Groups

The Water service area of Lake Livingston Water Supply Corporation is located within the Region H and Region I Regional Water Planning Groups. The Regional Planning Groups have a copy of the Water Conservation Plan on file.

## Section 5

### Schedule for implementation of Plan to achieve goals

Lake Livingston Water Supply Corporations Water Conservation Plan is immediately implemented throughout all departments to reduce water use and conserve water.

## Section 5 (Continued)

### Method for Tracking Effectiveness

The General Manager, Quality Control Manager, Assistant Quality Control Manager, Operations Superintendent and Operations Supervisor supervise and monitor all departments to track effectiveness of the Water Conservation Plan through reports, workorders, plant checks, leak summery forms Etc.

## Section 6

### Meters

Production (Master) meters are in place on each water source to each system to register water input to each system and water produced to each system.

The metering program is universal for all systems and uses a remote reading system.

## Section 7

### Measures to determine water loss

Water loss is determined from daily reports that report meter readings, leak repair, flushing, meter repair/replacement, equipment upgrade/repair Etc.

### Non-promotional water rate structure

### Inclining/Inverted Block Rates

## Section 8

### Implementation and enforcement

Implementation of this plan is immediate by the authority of the General Manager or General Manager's Designee.

Enforcement of this plan is conducted through the General Manager.
